

DJ International

Two Wheeler Garage Equipment

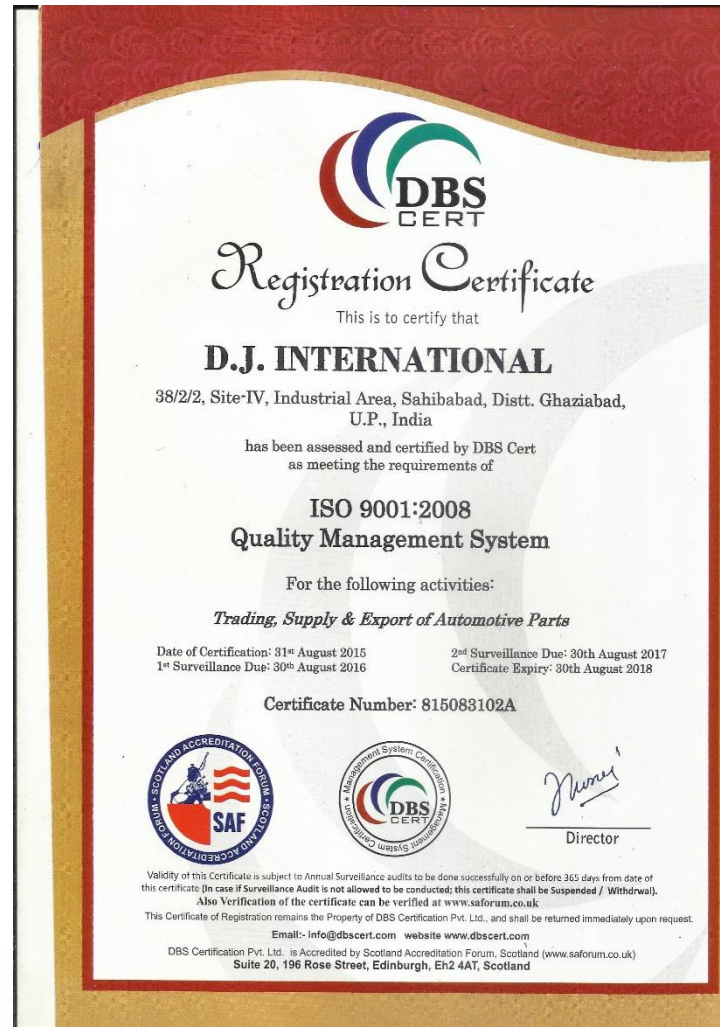

Company Profile

- Incorporated in 1999, D.J International is one of the leading suppliers of auto components like brake shoes, clutch plates, pistons, cylinders, oil seals, connecting rods, gears etc. We are an established name in auto components industry and have strong presence in various countries.
- Over the years, we have acquired unique engineering strength and understanding of the complexities involved with the manufacturing of critical automotive parts. We deliver competitive advantage to our customers by harnessing the talents of our experienced professionals and attractive pricing policy.
- The team has an experience of handling customers in over 70 countries across the globe.
- Since, we believe that our human resources is our biggest asset, we regularly undertake skills development initiatives and heavily invested in our employees training to meet world-class business practices. Operating at a high level of professional integrity, we assure our clients -high quality products, impeccable services and timely delivery of the consignment to their desired destinations.
